PROJECTS

Oxford Blog

Integrated a dynamic CREARE section into a college blog platform using React with API integration, enabling fully dynamic content management.

MenuHood

Developed a QR-based digital menu platform using MongoDB, Express, React, and Node.js. Built a real-time Admin Dashboard for instant price updates and menu management.

Satya Khabar - News Portal

Built a modern news portal with React, featuring dynamic content and responsive layout.

Bus Location Tracker

Build a public site for bus location tracker app with REST API integration and an admin panel.

Loopix

Designed a corporate website for Loopix Creations.
